

TRAINING

Level 2 Online Effective Maintenance of 3G Pitches

Course Description

This Level 2 training course is designed to provide a comprehensive overview of how and why certain maintenance and complementary activities are needed for a 3G pitch.

What will you learn?

By the end of this course you should be able to understand:

- the range of equipment and materials used in maintaining 3G pitches;
- the need to provide a duty of care to users;
- the need to carry out daily pre-use surface and goal post checks;
- the need for effective maintenance practices;
- how to carry out effective maintenance practices;
- the difference between routine maintenance and more specialist maintenance work;
- the requirements for maintenance planning;
- the need for good record keeping;
- the need for routine pitch performance monitoring and testing;
- where to find relevant Governing Body 3G information.

Is this training course suitable for me?

The course is designed to be of equal benefit to:

- a dedicated grounds person (employee or volunteer), who may also be maintaining grass surfaces and surrounds;
- a facility manager or facility assistant whose main role might be indoors dealing with customers and bookings, but who may occasionally help the main grounds person;
- a club volunteer who may be part of a volunteer team, who maintain a 3G pitch.

What can I do after this course?

Explore a range of options from 1-day training courses to full online qualifications which are recognised by your relevant national governing bodies.

3G Pitches

Benefits

You will become part of the growing network of sports turf experts and volunteers. You will gain valuable and applicable skills.

You will enjoy a fun, informative and productive course – with content from excellent and knowledgeable experts.
