

## **Reaseheath Sportsturf Machinery Show 2006**

See all the latest machinery at work!

Now in its fourth year, the fast-growing Reaseheath Sportsturf Machinery Show will take place on Wednesday 5th July at Reaseheath College in Nantwich, Cheshire.

The outdoor event, which is proudly supported by the Institute of Groundsmanship, is aimed at anyone who's involved in the maintenance of sportsturf surfaces and encourages local dealerships and industry companies to exhibit and demonstrate sportsturf machinery for the benefit of end users.

This year, closer collaboration between the event organisers, exhibitors and the National Turfgrass Foundation will see machinery put through its paces in a dedicated demonstration area.

The NTF's Martyn Jones will man the PA system to give a 10-15 minute commentary on each piece of equipment, ensuring visitors don't miss the opportunity to learn about the benefits of using specialist machinery on sportsturf surfaces.

Some of the latest innovations which can be seen in action at the show, include:

- SISIS AER-AID
- Toro Hydrojet
- Koro Field Topmaker
- Charterhouse Verti-Drain
- Dakota Spreaders
- Turfworks Amenity Management System
- Laser-guided Beamrider from Fleet Line Markers
- Graden Contour sand injection
- The Articulator from Lastec
- Ultra Pro 25 topdresser

Conference organisers said, "The Reaseheath Machinery Show is still a relatively new event in the turf industry calendar, but has the potential to grow and adapt to meet the needs both exhibitors and grounds care professionals. Being able to see such a large range of specialist machinery in operation and have any

questions answered on-the-spot makes taking a day out to visit the Reaseheath Show a very useful exercise.”

The college grounds offer the perfect environment for this kind of event. As well as machinery companies, there will also be an array of industry-related exhibitors covering all aspects of the sportsturf market from seed, fertiliser, chemical and topdressing suppliers to contractors, educational establishments and specialist organisations.

Dennis mowers will also host a free seminar on bowling green maintenance.

The event organisers and exhibitors look forward to welcoming you to Reaseheath College. Make it a date in your diary!

For further information please contact Ian Benison or Gareth Phillips on 01270 613212.
