

IOG in Action

Welcome to IOG in Action

The IOG in Action days are educational events for grounds staff that have been run successfully throughout the UK and Ireland for over 10 years. Previous venues include Millfield School, Wembley National Stadium, Rugby School, Nottingham Racecourse and Old Trafford to name but a few.

The programmes offer up to the minute education and advice on a range of relevant grounds maintenance issues, combined with live demonstrations, workshops and a study tour of the venue.

We do hope you will be able to join us at one of our events over the next year. Select from the menu on the left or click below to find out more about dates and venues for 2010.
