

IOG

INSTITUTE OF GROUNDSMANSHIP

Serving you through the seasons

Course Factsheet

Level 3 IOG Supervisory Management

Description

The five modules - team motivation, coaching skills, idea generation, meeting management and team building – can be studied individually for the IOG Level 3 Certificate in Supervisory Management, totalling around 150 hours of learning. You can enrol on one, or more modules to suit your needs. On the completion of an individual module, including the online assessment, you will receive a Certificate of Module Achievement. On the completion of all modules, you will receive a Certificate of Course Achievement, for Level 3 IOG Supervisory Management.

Why

This new learning route will help to support and develop those managers who have been promoted into management positions without any formal training or experience in issues that are 'non turf-related'. Content provides a detailed insight into the skills needed to lead, build and manage a team, including the development of coaching skills, improve personal management performance and enhance team motivation. Plus, review practices to meet the challenges involved, by creating better ideas and solutions.

Requirements

This is the IOG's key Management qualification and is ideal for people wishing to demonstrate their expertise within a sports turf related team. Candidates will ideally have at least 3 years' experience. Plus, there is no practical work involved with this qualification.

Study

The course can extend across nine months at a pace that suits the individual and is based on distance/home study learning, with tutor support primarily by email.

Assessment

If you wish to gain a Certificate of Module Achievement, in addition to the Certificate of Module Completion (which does not require an assessment element), you must successfully pass the end of module online multiple choice assessment. Learners who study all five modules and successfully complete each module online assessment will gain a Certificate of Course Achievement, for IOG Level 3 Certificate in Supervisory Management.

Progression

Learners can also complete a workbook for all five modules and submit to Lantra and if successful they will also achieve a Level 3 Certificate in Leading and Managing Teams in Land-based Establishments.
